

Support food bank listings in your county

foodbanks.co.uk, an independent UK food bank directory

The problem

Nearly 3,000 food banks, pantries and community larders operate across the UK. Their opening times, addresses and referral rules change constantly. When the information somebody finds is out of date, they make a wasted journey at the worst possible time.

What we do

We list every one of them, county by county and town by town, and we check the details directly with the organisations themselves. The site is free to use, with no account and no charge, and it always will be.

How it is funded

One business supports each county for twelve months. There are 72 counties. Their funding pays for the checking, the hosting and the upkeep. There is no other income.

What a supporter gets

- Their support acknowledged on every page in their county: the county page, every town and city page, and every food bank listing. In Greater Manchester that is 137 pages, in Kent 108, in Cornwall 57.
- A profile page on our supporters section
- A badge for their own website
- Exclusivity in that county for the full twelve months
- A written summary at the end of the year, in a form they can use in their own reporting

What it costs

Platinum £2,500 · Gold £1,500 · Silver £1,000 · Bronze £500 · Community bundle £500. Price follows the size of the county. Three-year commitments cost ten per cent less.

How it is presented

Acknowledgement, not advertising. The food bank information comes first. Support is acknowledged in a line at the foot of the page. Nobody using the site has anything sold to them.

Independence

Supporters have no influence over which food banks are listed or anything we write. Any food bank can decline to display supporter acknowledgements on its own listing, and we act on that the same day.

Sectors we cannot accept

Payday and high-cost lenders, gambling and betting, fee-charging debt collection and debt management, rent-to-own, alcohol and tobacco.
